

Mrs. Woodard:

April 23, 2018

I thoroughly enjoyed the wonderful presentation of the "Butterfly." It included creativity, phonics, music and movement, dance, and kept the children's attention throughout. I loved the colorful props that were amazing. Props of letters and leaves, an egg, caterpillar a cocoon, and a wonderful huge butterfly at the end were gorgeous. After that, they danced around as butterflies with their own colorful wings. You really thought of everything. The phonics included had the students remember letter and sound before sitting on the leaves. I thought the whole presentation was outstanding and I told several parents about it after school. The parents were very pleased that their child was a part of this interactive presentation. Mrs. Woodard, I loved your energy and beautiful smile on your face throughout as you invited each child to take part in the changes of the butterfly. After the children took their seats, I enjoyed the review of the steps of a butterfly and how you asked questions to make sure that they had learned and remembered the steps of a caterpillar to a butterfly.

Later, I asked my seven students what was there favorite part of the presentation:

1. Melanie-I loved the butterfly at the end.
2. Aiden B. - I liked the cocoon.
3. Aiden J. -I loved the caterpillar.
4. London- We was twirling like butterflies with our wings.
5. Alexander- I loved eating lots of leaves.
6. Steven- I loved that the butterfly dropped an egg.
7. My 'Asia- I liked sitting on the leaf.

I was so amazed how well the children described each part of the presentation. Each student loved something different too. All of the students said that they hope you come back again and do another presentation. Thank you so much for "wowing" us with your absolutely fantastic and very creative presentation that kept my students attention for a whole hour on a Monday morning. It was really a wonderful and outstanding presentation! God bless you and have an awesome day! Thank you again for coming and please come visit our class again soon.

Sincerely,

Ms. Smith
